- Two-way cushion + rebound integrated design, contracted and not simple.
- When I opened the door, distance buffer, accurate parking.
- Close light pressure rebound, shut down automatically set distance buffer.
- Quick release type on track structure, don't leave access port level can be adjusted.
- Door leaf hidden in the walls, not occupy the space was, vision is more open.
- The use of special materials, wheels, durable.
- Under the guide rail hidden installation ground appear easy to clean.

## TECHNICAL OVERVIEW

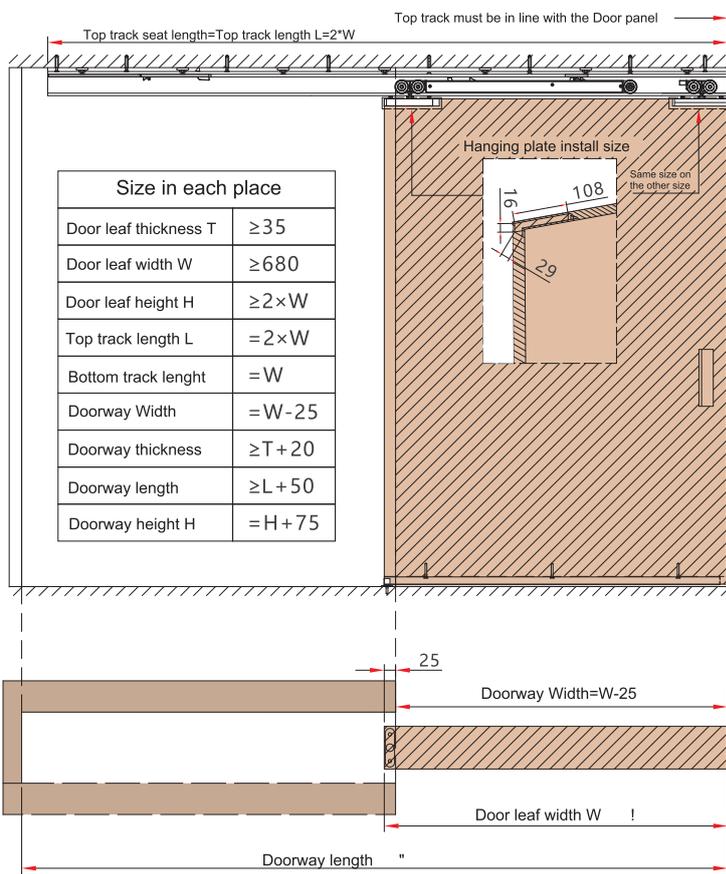

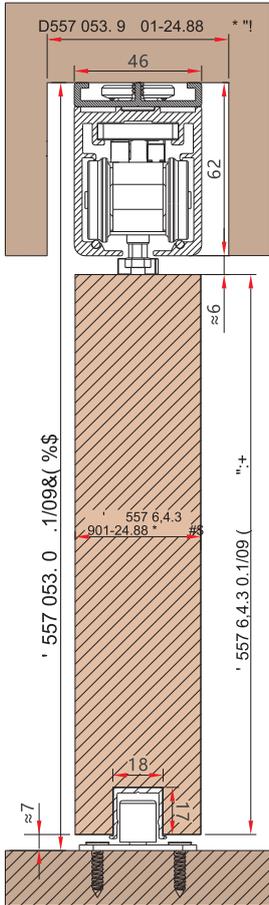

- Scope of application: single leaf wooden sliding doors.
- Adjustment performance: two dimensional adjustment
- Door weight: single door  $\leq 80\text{kg}$ .
- Door width:  $\leq 680\text{mm}$
